A Luxury Travel in Nara

The history of Japan as a unified state starts from Nara. Boasting three UNESCO World Heritage Sites including a total of 20 individual venues, Nara is the jewel in Japan's World Heritage crown. The UNESCO sites span ancient monuments and historic pilgrimage routes. To visit these is to understand Nara's contributions to the history and culture of Japan, and its relationship to the rest of the world.

You can visit one or more of the temples on the city's outskirts (less crowded but no less rewarding), stroll through the old merchant district of Naramachi and really immerse yourself in early Japanese history, art and architecture, for which Nara is famous.
